

# Decorate With Bright Pops Of Color In Your Home

When professional decorators want to brighten up a room or space, they reach for the brightest color on the color wheel -yellow. Yellow is the perfect home decor accent. If your home is based around beige, and gray, the color yellow could be just what is needed to brighten a room. Consider using false lemons in a bowl on the counter, or as a centerpiece on your dining room table. With a few items from your home, you can create a lively, edible centerpiece that will last for days. Lemon centerpieces will brighten up outdoor parties, indoor dinners and any bare casual table.
